

PROFILE SUMMARY

- 16+ years of experience in driving enterprise-scale Data, GenAI, and cloud modernization initiatives in regulated environments.
- Hands-on experience designing and governing production-grade GenAI architectures, including RAG, vector search, and agentic workflows, with strong focus on Responsible AI, model governance, and regulatory compliance.
- CXO-facing advisor supporting platform adoption, IPU/compute growth, ARR retention, and churn mitigation through architecture-led value delivery.
- Extensive experience with modern data platforms such as Lakehouse, Data Mesh, and Data Fabric, enabling scalable, governed, and business-aligned AI ecosystems.
- Recognized through multiple excellence awards at Infosys, Accenture, PwC, and Informatica for contributions to customer success, delivery leadership, innovation, and cross-functional collaboration, consistently translating AI investments into measurable business outcomes.

CORE COMPETENCIES

- Enterprise Data & AI Strategy

 - Enterprise Data & AI Vision, Strategy & Roadmaps
 - GenAI Use-Case Discovery, Prioritization & Value Measurement
 - AI Operating Models, Adoption Frameworks & ROI Tracking
 - CXO Advisory, Executive Workshops & Decision Enablement
- GenAI & AI Architecture

 - GenAI Architecture: RAG, Vector Search, Agentic AI
 - Enterprise LLM Design, Deployment & Lifecycle Governance
 - Model Risk Controls, Explainability, Fairness & Trust Frameworks
 - Production-Grade, Scalable AI Architecture Patterns
- Governance, Risk & Compliance

 - Data Governance Operating Models & Stewardship
 - Metadata, Lineage & Data Quality Frameworks
 - AI Governance & Regulatory Compliance (HIPAA, GDPR, SOX, 21 CFR Part 11)
 - Audit Readiness & Compliance-by-Design Architecture
- Data Platform & Cloud Architecture

 - Lakehouse, Data Mesh & Data Fabric Architectures
 - Databricks, Snowflake, Delta Lake-based Modern Data Platforms
 - Cloud-Native & Multi-Cloud Architecture (AWS, Azure)
 - Enterprise Integration & Scalability Design
- Leadership & Execution

 - Architecture Reviews, Design Authorities & Standards
 - Platform Adoption, Change Leadership & Enablement
 - Cross-Functional Delivery in High-Stakes Enterprise Programs

TECHNICAL SKILLS

- GenAI & LLMs: RAG, Vector Search, Agentic AI, Prompt Engineering, Responsible AI, LLM Governance, NVIDIA NeMo, NVIDIA NIM, TensorRT-LLM
- Data Platforms & Architecture: Databricks, Snowflake, Delta Lake, Lakehouse, Data Mesh, Data Fabric
- Data Engineering & Integration: Informatica CDI, CAI, CDQ, PySpark, ADF, APIs, ELT / ETL Pipelines
- Cloud: AWS, Azure, Cloud-Native & Multi-Cloud Architectures
- Governance & Compliance: Metadata, Lineage, Data Quality, Informatica CDGC, Unity Catalog, DAMA, DCAM, HIPAA, GDPR, SOX, 21 CFR Part 11
- MLOps & Model Governance: MLflow, Model Registry, Feature Store, Deployment & Monitoring Patterns

SOFT SKILLS

CERTIFICATIONS

- Leadership with AI — Indian School of Business (ISB)
(Expected: Oct 2025 – Feb 2026)
- AI Governance Certification — Intel (Sep 2024 – Oct 2025)
- Gainsight Certified Administrator — Gainsight
- CDGC (Cloud Data Governance and Cataloging) — Informatica
- CAIRE (Cloud AI Responsible Enablement) — Informatica
- Agentic AI Certification — Informatica
- Certified Scrum Master (CSM) — Scrum Alliance (Nov 2019)

CAREER TIMELINE

WORK EXPERIENCE

Nov'22 – Present | Informatica Business Solutions Pvt. Ltd, Remote | Senior Solutions Architect

Key Highlights

- **Revenue & Platform Growth:** Drove **100% increase in IPU consumption** by leading architecture-led GenAI and data platform adoption across strategic enterprise accounts.
- **ARR Retention & Churn Prevention:** Enabled **~\$600K ARR retention in a year** by stabilizing at-risk customers through architectural remediation and roadmap realignment.
- **Governed GenAI Enablement:** Delivered **enterprise-grade, governed GenAI programs** aligned with Responsible AI, audit readiness, and regulatory compliance standards.
- **Operational Efficiency Improvement:** Achieved **4.2× operational efficiency gains** by simplifying architectures and transforming 24/7 support models to 8/5 operations.

Core Contributions

- **Enterprise Data & GenAI Architecture:** Designed and governed **enterprise-scale Data & GenAI architectures** across AWS and Azure using Lakehouse, Data Mesh, and RAG-based patterns.
- **LLM Governance & Responsible AI:** Established **LLM lifecycle governance**, including metadata, lineage, data quality, and Responsible AI controls for production deployments.
- **CXO Advisory & Roadmap Alignment:** Led **GenAI use-case discovery, prioritization, and roadmap alignment** with CXOs, business leaders, and platform stakeholders.
- **Critical Account Stabilization:** Resolved **high-impact architectural, integration failures**, preventing churn & restoring long-term customer confidence.

Sep'21 – Nov'22 | Gainsight Software Pvt. Ltd, Hyderabad | Solution Architect

Key Highlights

- **Platform Modernization:** Led enterprise adoption of Gainsight NXT through structured migrations and modernization initiatives.
- **Customer Stabilization:** Improved onboarding and integration processes for complex enterprise accounts.
- **Delivery & Product Impact:** Standardized delivery frameworks and influenced product improvements to enhance adoption and predictability.

Core Contributions

- **Architecture Leadership:** Designed enterprise-scale data and platform migration architectures with optimized integration flows.
- **Framework & Template Design:** Developed standardized onboarding and implementation templates, reducing complexity and risk.

Mar'17 – Aug'21 | PwC India Ltd, Bangalore | Manager

Key Highlights

- **Enterprise Transformation:** Led cloud, data, and integration strategy engagements for large-scale, regulated clients.
- **Revenue & Proposal Enablement:** Supported high-value proposal closures through architecture-driven solutioning.

Core Contributions

- **Architecture & Roadmaps:** Defined future-state enterprise architectures and modernization roadmaps across data, cloud, and integration.
- **Stakeholder Advisory:** Guided CXOs and senior leaders on technology investments and transformation priorities.
- **Program Governance:** Led cross-functional teams and ensured architectural rigor through solution reviews, RFPs, and delivery checkpoints.

PREVIOUS EXPERIENCE

- Aug'15 – Nov'16 | Anicalls Consultancy | Senior Consultant
- Nov'13 – Aug'15 | Accenture Software Pvt. Ltd | Senior Analyst
- Sep'12 – Nov'13 | Colruyt IT Consultancy Pvt. Ltd, Hyderabad | Senior Software Engineer
- Jul'09 – Aug'12 | Infosys Ltd, Hyderabad | Senior Systems Engineer

INNOVATION & THOUGHT LEADERSHIP

- Contributed to **HamsaTech**, developing technology-driven solutions addressing India's social challenges in healthcare and agriculture, with a focus on mental wellness and farmer support.
- Mentored early-stage startups in the **Vizag ecosystem**, guiding application of Data, Cloud, and AI technologies to drive social and economic impact.
- Served as a **guest speaker and mentor** at engineering colleges, delivering sessions on Data Engineering, GenAI, Responsible AI, and leveraging technology for societal advancement.

EDUCATION

	2025 Master of Technology in Computer Science (M. Tech.) Andhra University – 85%
	2009 Master of Computer Applications (MCA) Andhra University – 74.5%
	2006 Bachelor of Science (B. Sc. – Electronics) Andhra University – 68.7%
